

Who Has More?

Circle the one who has more baskets of berries.

Play "Who Has More?" with Mother Bunny and Miffy!

SET UP*

You will need

or

The characters on this page are **Mother Bunny** and **Miffy**.

WHAT TO DO

First, ask your child to color in the page. Explain that this is a game called "Who Has More?" Ask: **Can you tell if one friend has more baskets than the other friend?** (Mother Bunny has more baskets.) Invite your child to count how many baskets Miffy has (2), and how many Mother Bunny has (6). Then ask: **Can you circle the friend who has more baskets?** Ask him or her to count Miffy's baskets, and compare that number with the number of Mother Bunny's baskets. Ask: **Who has more baskets?**

FOLLOWING UP

Extend the "Who Has More?" game by asking questions such as: **What could you do to make it so that Miffy has more baskets than Mother Bunny?** (Draw more baskets for Miffy and then count to check.) **What if Miffy and Mother Bunny each wanted to have 7 baskets? What if they each wanted 1 basket?**

LEARNING GOALS

Demonstrating the mathematical concepts of "more than," "less than," and "the same number as;" demonstrating that the cardinal number of a set of counted objects is not changed by the rearrangement of those objects; developing concepts of number and quantity by identifying what makes up a set, counting to find the number of a set, and comparing the numbers of sets; providing practice with addition and subtraction.
