

You Can Never Go Down the Drain

You can never go down
Can never go down
Can never go down the drain.
You can never go down
Can never go down
Can never go down the drain.

You're bigger than the water.
You're bigger than the soap.
You're much bigger than all the bubbles.
And bigger than your telescope

So you see...
You can never go down
Can never go down
Can never go down the drain.
You can never go down
Can never go down
Can never go down the drain.

The rain may go down,
But you can't go down.
You're bigger than any bathroom drain.
You can never go down
Can never go down
You can never go down the drain.
