

Toopy and Binoo

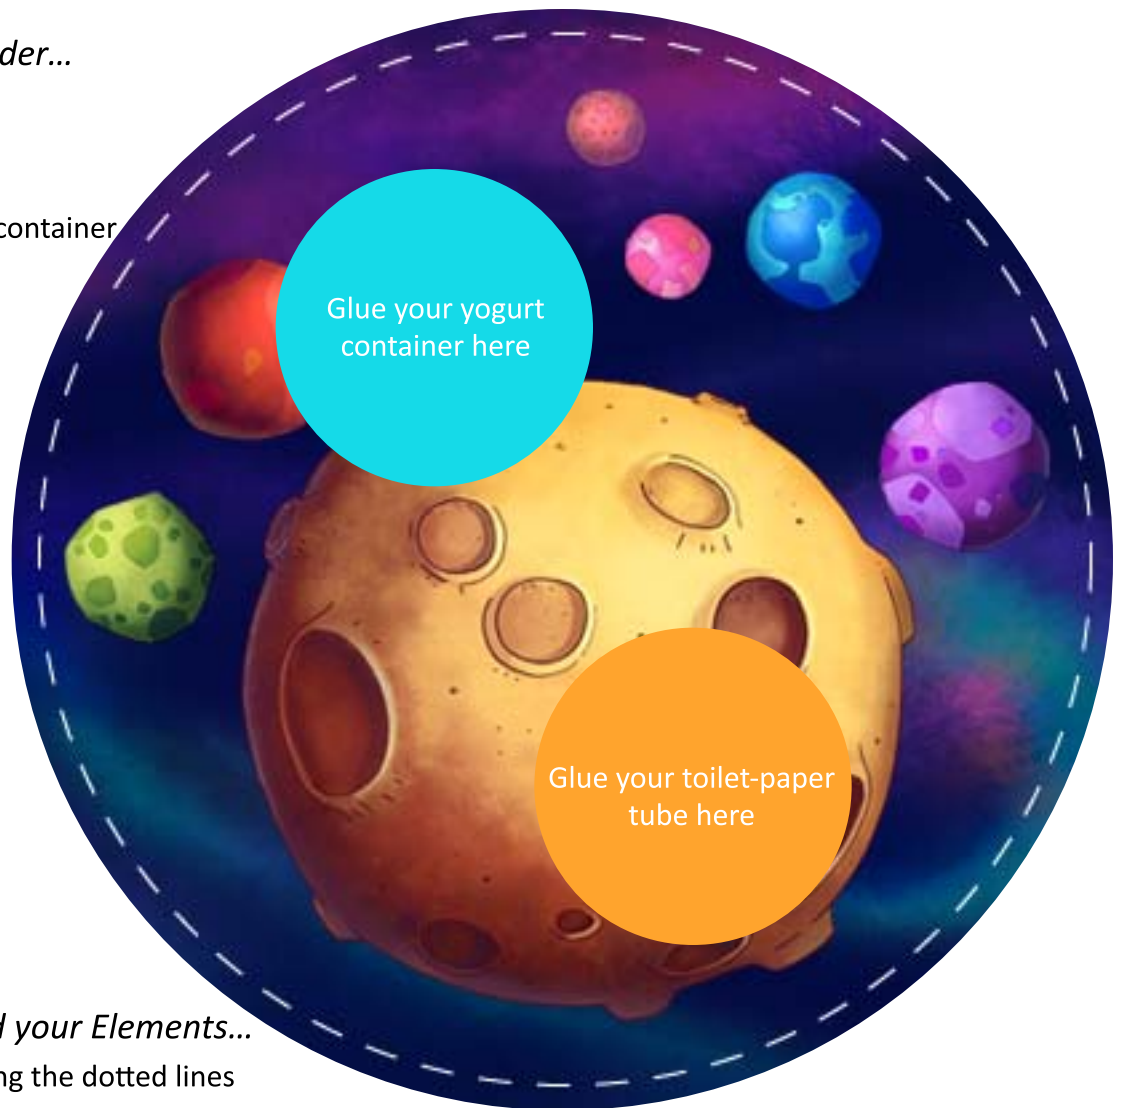

The Pencil Holder from Space!

Make your Pencil Holder...

Ask a grown-up to help.

You will need:

- 1 toilet-paper tube
- 1 small, empty yogurt container
- Glue and scissors
- A piece of cardboard

Create your Base and your Elements...

- Cut out your circle along the dotted lines and glue it on the piece of cardboard. Cut out the piece of cardboard by following the edge of the circle.
- Cut out the big rectangle and glue it around the toilet-paper tube.
- Cut out the small rectangle and glue it around the yogurt container.

Assemble your Elements...

Place the tube on the base in the indicated space and glue it. Do the same with the yogurt container.

There you are, all ready to go!

When you're finished, don't forget to recycle the leftover paper!
