# Finger Fun

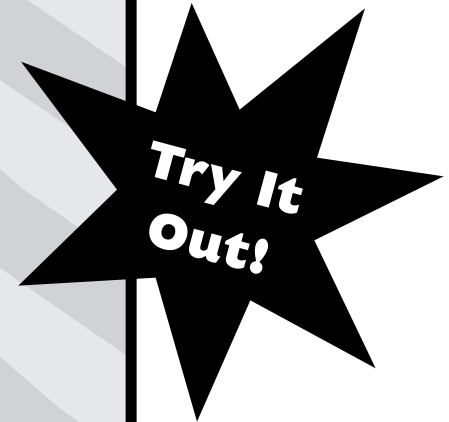

Try this freaky finger trick.

## What You Need

- sheet of paper
- pencil

- 1 Make a **fist** with the hand you don't write with.
- 2 Move the **index finger** of that hand this way: **up-in-out-in-up-in-out-in**. Keep repeating this motion.
- 3 While you are still **moving** your finger, try **writing** your name with the other hand. What happens?

What other quirky tricks can you do with your body? Send your ideas to ZOOM.

What other things can you do at the same time as you write your name? How about writing your name while blindfolded? Predict what you think will happen, and then test it.
